Naval Battle Off The New England Coast Is Hinted

FRENCH SUCCESS ALONG THE AISNE IS CONTINUING

More Villages and Fortified Positions Are Captured From Germans

CAPTURE 14,000 GERMANS IN TWO DAYS' FIGHTING

British Also Strengthen Positions and Capture Additional Ground

(ASSOCIATED PRESS TELEGRAM)
New York, April 18.—Continuing their great offensive along the Aisne and in the Champagne the French have made further important gains. More than 14,000 prisoners have been taken in the two days of the attack. Twelve cannon, including three of large calibre, were among the large quantities of war material captured.

The battle, described as the greatest since the battle of the Marne, and considered a logical continuation of that struggle, an interval of more than two years, developed during last night's heavy fighting in the region northeast of Soissons where far north of the Aisne, the French completed their occupation of Chivry, east of the Oise-Aisne canal and pressed on to Braye-en-Laonnois, which was entered by French patrols. On the Aisne further west they occupied the village of Chavonne.

For the rest of the region several fortified positions were wrested from the Germans in the neighborhood of Ville-Au-Bois, three miles southeast of Craonne and on the main highway leading northwest from Rheims.

Momentarily halting in the Champagne district to organize their positions the French were attacked in the process by the German forces. Three counterattacks were delivered at Mont Carnillet, ten miles southeast of Rheims. All these German reactions were beaten off with heavy losses to the attacking forces.

While the French are delivering their heavy blows in the Aisne-Champagne battle the British are organizing their forces for a renewal of the struggle in the Arras region. The process of envelopment is being continued about Lens and the similar operation at St. Quentin is registering progress.

In their operations northwest of St. Quentin, General Haig's forces last night straightened out their line by an advance of more than a mile, capturing the village of Villers-Cabriel and the further progress east of Epehy toward the St. Quentin-Cambrai railway opposite Le Catelet. They also improved their position in the vicinity of Lagnicourt, north of the Bapaume-Cambrai road, which the Germans made a desperate but vain attempt to hold after entering it in their attack on a six mile front last Saturday.

142 SALOONS VOTED OUT

Chicago, April 18.—Figures compiled today by the Anti-Saloon league show that 142 saloons were voted out of business in elections yesterday in various cities and towns of Illinois. The drys won in 14 wet cities and towns but lost three dry towns. The liquor forces retained 12 wet towns besides winning the only three dry towns.

FIRST RED CROSS CHAPTER HERE TO BE ORGANIZED TONIGHT'S MEETING

The first opportunity for the patriotic people of Newark to form an organization for aiding the army and navy in the war will be given at 7:30 in the Chamber of Commerce. At that time, a chapter of the Red Cross will be formed. Men, women and girls are eligible to membership. Blanks for application to membership costs one dollar to be paid when the application is made. No application for membership will be considered unless accompanied by one dollar. Just as soon as possible arrangements will be made for work on supplies. It is hoped that a sufficient number of members will be obtained to form auxiliary groups in different parts of the city to make bandages, dressing, etc.

Dozens of Red Cross membership campaigns are in progress in the various states and cities and thousands of men and women are offering their services.

President Wilson, as president of the American Red Cross says: "Experience is certainly the most convincing teacher, and we should learn by these European examples how to conduct our own relief work with the most thorough efficiency and system. With its catholicity and its democracy the Red Cross is broad enough to embrace all efforts for the relief of our soldiers and sailors, the

CONSCRIPTION IS INSISTED UPON BY PRESIDENT WILSON

(ASSOCIATED PRESS TELEGRAM)
Washington, April 18.—Opponents of selective conscription plan to get the upper hand in the house military committee today voted 12 to 8 to have the army bill carry a provision to first try to raise the new force by volunteers.

Meanwhile the bill including the conscription provision was approved by the senate military committee ten to seven. While two committees were acting, President Wilson was at the capitol conferring with Senate leaders on the administration war measures, particularly the army bill. The senate committee rejected an amendment by Senator McKellar authorizing the president to call for 500,000 volunteers, and made only a few changes in the bill as drawn by the army general staff.

One amendment would bar liquor from all camps where the new army is to be trained and another would include persons engaged in agriculture and the industries exempted from service on account of military reasons. The president told Senators he would consent to no compromise because the war department experts after careful examination and discussion had decided that selective conscription was the only effective way of raising a strong army.

SOLDIERS GUARD KAISER'S PALACE FROM STRIKERS

Munition Workers In Spandau and Warsaw Join Protest Against Starvation

GOVERNMENT DENOUNCED FOR SHORTAGE OF FOOD

German Papers Report Bitter Feeling Among the Strikers

(ASSOCIATED PRESS TELEGRAM)
Copenhagen, via London, April 18.—The number of strikers in Berlin is placed in even the semi-official reports at 125,000 and is distributed, according to the Tageblatt, through machine workers, some electrical establishments and part of the munition plants.

The latter statement is interesting in view of a dispatch from the official news bureau saying that the munition industry at Spandau has not been involved. Reports in all the Berlin newspapers which have arrived here agree that the demonstrators were unusually orderly although roughs resorted to occasional window breaking in the Unter den Linden, the Friedrich and Leipziger strasses and other central thoroughfares. Soldiers as well as police were used in cordons thrown about the Unter den Linden and the imperial castle.

Great crowds gathered in the neighborhood of the castle during the day and the temper of the crowd, particularly the women, is described as very bitter. The strikers denounced the farmers and wholesalers and the government in equal measure for responsibility for the food situation. Even socialist leaders who opposed the strike made it evident to the authorities that a further curtailment of rations from any cause could not be borne.

Labor representatives interviewed Lord Mayor Wermuth and the Prussian Food Commissioner Michaelis yesterday. They were given assurance in regard to food which it is hoped will induce the workmen to abandon the strike.

MUNITION WORKERS QUIT

(ASSOCIATED PRESS TELEGRAM)
Copenhagen, via London, April 18.—A strike has broken out among Polish munition workers in Warsaw, where Germany has been using Polish laborers to help to supply the eastern army. Ordinances of the German military governor, which are republished in a Polish paper, threaten those refusing to work with a year's imprisonment or transfer to a prison camp. The governor declares that no release or favors of the Polish prisoners of war will be granted until the strike movement is checked.

STRIKERS RESUME WORK

(ASSOCIATED PRESS TELEGRAM)
London, April 18.—A Berlin dispatch to the Politiken of Copenhagen, as forwarded to the Exchange Telegraph company, says that work has been resumed in most of the Berlin factories.

The Vossische Zeitung of Berlin says that as conditions of returning to work, the strikers demanded a sufficient food supply of bread and potatoes, proper distribution of food and a guarantee of the promised Prussian electoral reform.

TRAVELING FARM CORPS IS PLAN TO INCREASE CROPS

Washington, April 18.—Cration of a traveling corps of farm labor to work on irrigated lands of the country is the novel proposal of Secretary Lane to further the nation-wide campaign to increase food production during the war.

The plan was outlined today in a communication to Chairman Taylor of the house irrigation committee in which the secretary urges prompt action on the pending bill designed to stimulate food production on private and public lands, within irrigation projects. This legislation, he says, is a necessary pre-requisite to his plan. "We have, as you doubtless know," Secretary Lane wrote, "a little more than 700,000 acres of land within our reclamation projects upon which water may be placed this season. The proposed bill is one by which all of the private and public lands upon the reclamation projects can be utilized. This I hope can be done in a whole-sale way by the creation of an equipped and mobile organization of farm labor. In every one of our projects—as in every county in the United States—there are considerable bodies of idle land. Some of these tracts are lying idle because of lack of farm implements and capital. Our hope is that all of these acres be impressed immediately into service."

YOUNG AMERICA LEARNING TO FIGHT

The naval training station at Newport, Rhode Island, is humming with life and activity. Recruits are coming in by the hundreds daily from all eastern points and these men must be fitted out and put in their places in the training classes. The men at the station are being carefully drilled in every detail concerning naval and marine service.

WAR-TIME GRAFTERS ROASTED BY EVANGELIST; RAPS NUDE MOVIES, SCORES STYLES OF MODERN WOMEN

SOME BROMLEY EPIGRAMS.
"The devil is a cute old fellow. He knows how to make wrong look right."
"Don't shake your fist in God's face."
"God is the finest mathematician that ever solved a problem."
"Better get things patched up while you're on earth."
"We're too immersed in getting the almighty dollar."
"Don't lose your soul to spite another fellow."
"Live up the part of the Bible you know. Don't worry about the rest."

Men who take advantage of war conditions to boost prices of the necessities of life were declared unpatriotic by Evangelist Bromley at the tabernacle last night. He pleaded for co-operation of a practical kind, in which small profits on business transactions should be the rule. "We must follow President Wilson's proclamation. Let's forget profits and be as patriotic in our business deals as we are in bearing arms in the service of our country. Don't let swollen munitions profits be the curse of the United States," he pleaded.

"There are some men who are so engrossed in the pursuit of the almighty dollar that they forget entirely their duty to the country that prospered them."

Suggestive moving pictures were unmercifully scored by the Evangelist and he punctuated his remarks

by a reference to a reel which shortly will be shown in Newark. He urged that the people should petition the authorities to suppress the exhibition of immoral motion pictures for the public good.

Modern women's fashions also were rapped. As he wormed up to his task, the evangelist threw off his coat, whereupon someone snickered, but only for a minute. "Don't laugh," cried the evangelist, with extended hand. "Some of you women have on less right now than I have!" and he joined in the laugh from the male portion of the audience.

The big chorus, under the able leadership of Director Wileand, is steadily improving, and the audience enjoyed a treat in the able manner in which the hymns were rendered. There was a swing and melody to the music which forced one to join in, and certainly there was no lack of "life" and "team work" in the song service.

The devil received his dues from the evangelist. "The devil is a cute old fellow," he declared. "He throws out his bait, and the poor sinner takes the bait, hook, line, sinker and pretty near bites the devil's hand. And in no way does the devil gain his ends better than by using right in a wrong way. Many people have an impression that there is no devil, but if they came to Newark they would find out that if there ever was one he is right here in this town."

The evangelist deplored the procrastination and slowness of the average person in getting right with God. "It's hard to have to apologize and explain matters in heaven," he stated. "Better get things patched up while you're on this earth. You're like the man I knew (Continued on Page 12, Col. 3.)

AGREE ON WAGES; COAL MINERS PLAN AMPLE PRODUCTION

(ASSOCIATED PRESS TELEGRAM)
New York, April 18.—Having settled their wage differences, the bituminous coal miners and operators of Ohio, western Pennsylvania, Illinois and Indiana will unite to co-operate with the council of national defense in maintaining the production of coal to meet government requirements. A joint committee for this purpose was appointed by the wage conference before it adjourned last night.

Firing Reported By Wireless Stations At Several Points

Boston Navy Yard Believes Warships Were Engaged With Enemy Vessels, and Discount Suggestions of Salutes or Navy Target Practice

NO REPORT RECEIVED BY OFFICIALS OF NAVY DEPT. FROM WAR VESSELS

Navy Men Doubt That Cruiser On Active Duty Would Betray Presence By Firing Salutes Unless Prearranged—Admit Probability of Engagement With German Craft—First Report Came From Provincetown Followed Quickly By Other Radio Reports—More Than Thirty Shots Fired According to Reports

(ASSOCIATED PRESS TELEGRAM)
Boston, April 18.—Reports of heavy gun fire at the entrance of Massachusetts bay sent a thrill along the coast today. Three coast guard stations on Cape Cod successively reported to the navy yard here that they had counted distinct and repeated guns from the north and northeast of the tip of the cape.

It was believed at the navy yard that American vessels were engaged with the enemy. Inside the cape a heavy fog hung over the waters, but outside the weather was calm and a gentle breeze was blowing. No warship was sighted by the three stations, and after 30 minutes the firing ceased.

It was suggested that ships of the allies which are constantly on patrol duty might have come up with friendly warships and "salutes" exchanged. However, naval men could not understand warships on active duty betraying their location through naval etiquette. They believe that there was no saluting unless pre-arranged and of which there was no knowledge at the navy yard.

Subsequent attempts to learn something more definite failed and an explanation of the firing awaited reports from war vessels in the vicinity. Meantime steps were taken to meet any emergency. The first report reached Lieutenant E. G. Blakeslee, in charge of the radio naval district that includes all the New England coast, from naval station number 32 at Provincetown just inside the cape. It read:

"At 9:15 a. m. in direction northeast by north, 15 guns heard in quick succession. After an interval of 15 more guns were heard."

Receipt of this message was followed by a report from station No. 33 at Race Point, directly on the tip of the cape and the northerly point. It read:

"At 9:30 heavy firing of guns in quick succession heard due north. Several more guns heard 10:20." (There was some doubt whether the

latter figures were meant to indicate the hour.)

On the heels of these messages came a third from Coast Guard Station No. 34 at Peaked Hill Bar, located on the outside of the cape, near the northern end, and not far from Highland Light. The message said:

"At 9:41 three guns heard in quick succession northeast by north. Heard plainly."

The navy yard had no information except that received from the coast guard stations. Newspaper correspondents on the cape said reports of gun fire were current, but all of these were traced to messages received at the navy yard. No citizens at Highland Light or other points nearby could be found who heard gun fire. However, the reports were taken very seriously at the navy yards where the feeling was that there had been a battle off the coast.

SCHOOL CREDIT FOR FARM WORK TO BE ASKED

Effort to Start to Get Boys
From City to Help Farm-
ers Produce Big Crops

The Rotary Clubs of America have assumed charge of getting the boys out of the schools and onto the farms to help the farmers get their crops in and to cultivate and harvest them.

The national secretary has just telegraphed Charles E. Hollander, secretary of the Newark Rotary club, urging him to get the Board of Education to grant students credit for farm work and to secure the co-operation of the newspapers and the farmers of Licking county. The local club is asked to encourage the Newark boys to enlist for farm work, to arouse enthusiasm among teachers, students and the public as well as to adjust matters of compensation between the farmers and the boys, in other words to serve as a clearing house for the entire proposition. The Newark Club before receiving the dispatch from national headquarters took up the subject of greater crop production and at a meeting yesterday in Columbus appointed a committee to map out a line of action and report at next Tuesday's meeting.

President Jones this morning upon receipt of the telegram from national headquarters appointed W. E. Hopkins, Wilson Hawkins and Frank L. Johnson as a committee to take the matter up promptly and work to the end suggested by the message from Secretary Perry of Chicago.

President Wilson has said that upon the farmers of America rests in large measure the fate of the war and the fate of nations. Without abundant food alike for armies and the people at war the whole great enterprise upon which we have embarked will fail. The supreme test of America has come. Great crops must be raised this season and every body is urged to do his or her part.

SENATE PASSES THE FINANCE BILL NO OPPOSITION

Washington, April 18.—The war finance bill, providing for issuance of \$7,000,000,000 in securities—the largest single war budget in any nation's history—was passed unanimously last night by the senate. The vote was 84.

After seven hours of discussion the administration measure, which was passed by the house last Saturday and which provides for a loan to the allies of \$300,000,000, was approved by the senate, with a few amendments in record time. The amendments may necessitate a conference or the senate changes may be accepted by the house.

In either event, the executive branch of the government conducting the war with Germany will within a few hours have authorized for the great war chest at its disposition. The expedited action, the senate last night appointed conference to act in the house should not, contrary to expectations, accept the senate changes.

Treasury officials, anticipating the action of the house on the bill, began today to work out the policy to be employed in issuing the bonds. Secretary McAdoo will seek the advice of leading financiers of the country regarding the best means of floating the issue and to that end has invited suggestions from members of the advisory council of the federal reserve board.

favorable consideration in the house.

The president was assured that the majority of republicans in the house were supporting his plans.

The vote in the house committee threw the situation into confusion. The opponents of a straight conscription plan immediately began to draft amendments in the hope of getting the conscription element to join in a united vote.

Chairman Doot of Representative Field, Shallenberger, Anthony, Caldwell and Hull of Iowa, conferred over a plan to use conscription after a call for volunteers apportioned among the states to be offered in the same way as proposed in the administration bill.

LIFE INSURANCE RATES BOOSTED.

[Associated Press Telegram]
New York, April 18. One of the largest life insurance companies in the country announced today that beginning at 1 o'clock this afternoon premiums on new policies on the life of any man in the army or navy would be raised \$70 for each \$1,000 of insurance. This is in addition to an increase of \$30 announced some time ago.

SECOND FRENCH ATTACK WAS CAREFULLY PLANNED

[Associated Press Telegram]
Paris, April 18.—The latest French victory while on a smaller scale than that of Monday, is an equally important success. Both of the sections attacked had been left alone hitherto on account of the exceptional natural strength of the German positions. The French command held that an assault could only be successfully undertaken when overwhelming resources had been accumulated and the general situation was favorable.

The general who commands the armies of the right center had been planning the attack for several weeks and had left nothing to chance. Everything was provided for and the chiefs under him had nothing to do but follow instructions to the letter.

As soon as the result of the battle between Soissons and Rheims was known the order was given to attack. Punctually at 4:45 the French infantry "went over" well supported by a powerful mass of artillery. They swept forward in magnificent style and in two hours the first line system had been captured. Later news came that the French soldiers were carrying all before them and taking prisoners by the scores. They seized Mont Camillet, Mont Haut and all the crests commanding the region. From their new positions the French now look down upon Moronvillers and Nauroy. This Moronvillers chain of hills was regarded by all French soldiers who had ever been in the section as virtually impregnable and its capture caused the liveliest satisfaction to everybody.

The 75's followed up the infantry rapidly and were soon in action. They caught large bodies of the enemy massing with the object of making a diversion and decimated them.

NEWARK FACTORY GOES TO ZANESVILLE SOON

The Kettrophone Talking Machine company, which is located in the building formerly occupied by the Scott Chair company, and which was organized and controlled by Newark men, has accepted an offer to take the company to Zanesville, and the plant will be moved to that city in about thirty days.

At a meeting of the Chamber of Commerce Tuesday evening in Zanesville \$15,500 was subscribed among the 125 members present in the initial effort to raise \$25,000 in stock to secure the location of the factory in that city.

The company was organized last summer in Newark by a number of Newark business men including J. A. Kettering, the inventor, Harry Swisher, George Hayden, Dr. J. D. Swisher and others.

WHEELING STRIKE STILL UNSETTLED; PLANT IDLE

[Associated Press Telegram]
Wheeling, W. Va., April 18.—Efforts of federal mediators, representing the department of commerce to bring about a settlement of the strike declared a week ago by employees of the Yorkville, O., plant of the Wheeling Steel & Iron company, have thus far been without success it became known today. About 1500 men are on strike and the output of enough material for 2,000 gun barrels a day is being held up. The strike, which resulted from the discharge of a number of workmen, has developed until the recognition of the union is one of the issues involved.

FLAG RAISING SATURDAY AT THE B. & O. SHOPS

There will be a patriotic demonstration and flag raising at the B. & O. shops by the railroad boys Saturday afternoon. They have purchased a mammoth flag and will float it from the high flagstaff at 2:30 o'clock. There will be short patriotic addresses and a concert by the Y. M. C. A. band. The band will parade around the square in the afternoon at 2 o'clock previous to going to the shops and all citizens are asked to join and help celebrate the occasion. An invitation is also extended to every branch of railway employees.

PRESIDENT APPROVES GOVERNOR COX'S IDEA

[Associated Press Telegram]
Columbus, April 18.—President Wilson, in a letter to Governor James M. Cox of Ohio, today approved the suggestion of the governor that a law be enacted to govern the use of the word "made in Ohio" on goods produced in that state. The president's approval is a strong endorsement of the plan.

MR. ASHBROOK WANTS TO KNOW YOUR OPINION

It is proposed to raise an army of a million or more men to serve during the war.

President Wilson and the administration leaders strongly favor the plan of selective conscription but there is a feeling among many people that the voluntary system should first be tried.

Military experts have no hesitancy in endorsing the President's plan as the most equitable, most scientific, most effective and only practical way. The volunteer system, it is claimed, will not produce an army of sufficient size, it will not place the burden where it rightfully belongs and will in many instances place men in charge of companies or regiments unfitted by training to assume command.

This matter is to come before congress at once. Representative William A. Ashbrook desiring to know the feeling of the people of this district has sent the following telegram to the Advocate requesting its publication and inviting replies from the people of the seventeenth district. Mr. Ashbrook says:

"It is proposed to raise an army of a million or more men to serve during the war. Do you favor straight conscription or do you favor first giving each man an opportunity for volunteers with conscription for the shortage? Your brief advice is desired quickly by wire or letter, with permission to use your reply."

Telegram or write to Hon. Wm. A. Ashbrook, House of Representatives, Washington, D. C., promptly.

GAS EXPLOSION AT AM. BOTTLE PLANT BURNS FOUR MEN

Four employees of the American Bottle Company, H. D. Jones, H. P. Hess, Casper Jewell and William Rodeniser, were badly burned this morning while opening a condenser for artificial gas. There was an explosion caused possibly by the rush of cold air and a cloud of steam, gas and soot were blown over the men. Messrs. Jewell and Rodeniser having their faces, hands, wrists and necks badly burned and their hair scorched. Messrs. Jones and Hess were burned about the face. Dr. J. G. Shiner was called and administered soothing lotions and first aid and the men were then taken to the Newark Sanitarium where the burns were dressed. The first two named men were compelled to remain at the Sanitarium and the other two were able to be taken home. Their eyes were not injured.

ALL ALIEN ENEMIES IN RESTRICTED ZONE MUST MOVE BY JUNE 1

[Associated Press Telegram]
Washington, April 18.—All alien enemies residing within one-half mile of a fort, camp, aircraft station, government or naval vessel, navy yard, factory or workshop for the manufacture of munitions are required to move prior to June 1, under penalty of arrest under instructions issued today by the attorney general to United States marshal. Certain exceptions may be made within well defined limitations. This carries out the terms of the President's proclamation.

The attorney general's instructions also cover the enforcement of other regulations prescribed in the President's proclamation. Alien enemies found with forbidden articles in their possession after April 24 shall be arrested except in cases where the marshal shall be satisfied they are not dangerous to public safety.

GERMANS CLAIM SUCCESS ON THE MACEDONIAN FRONT

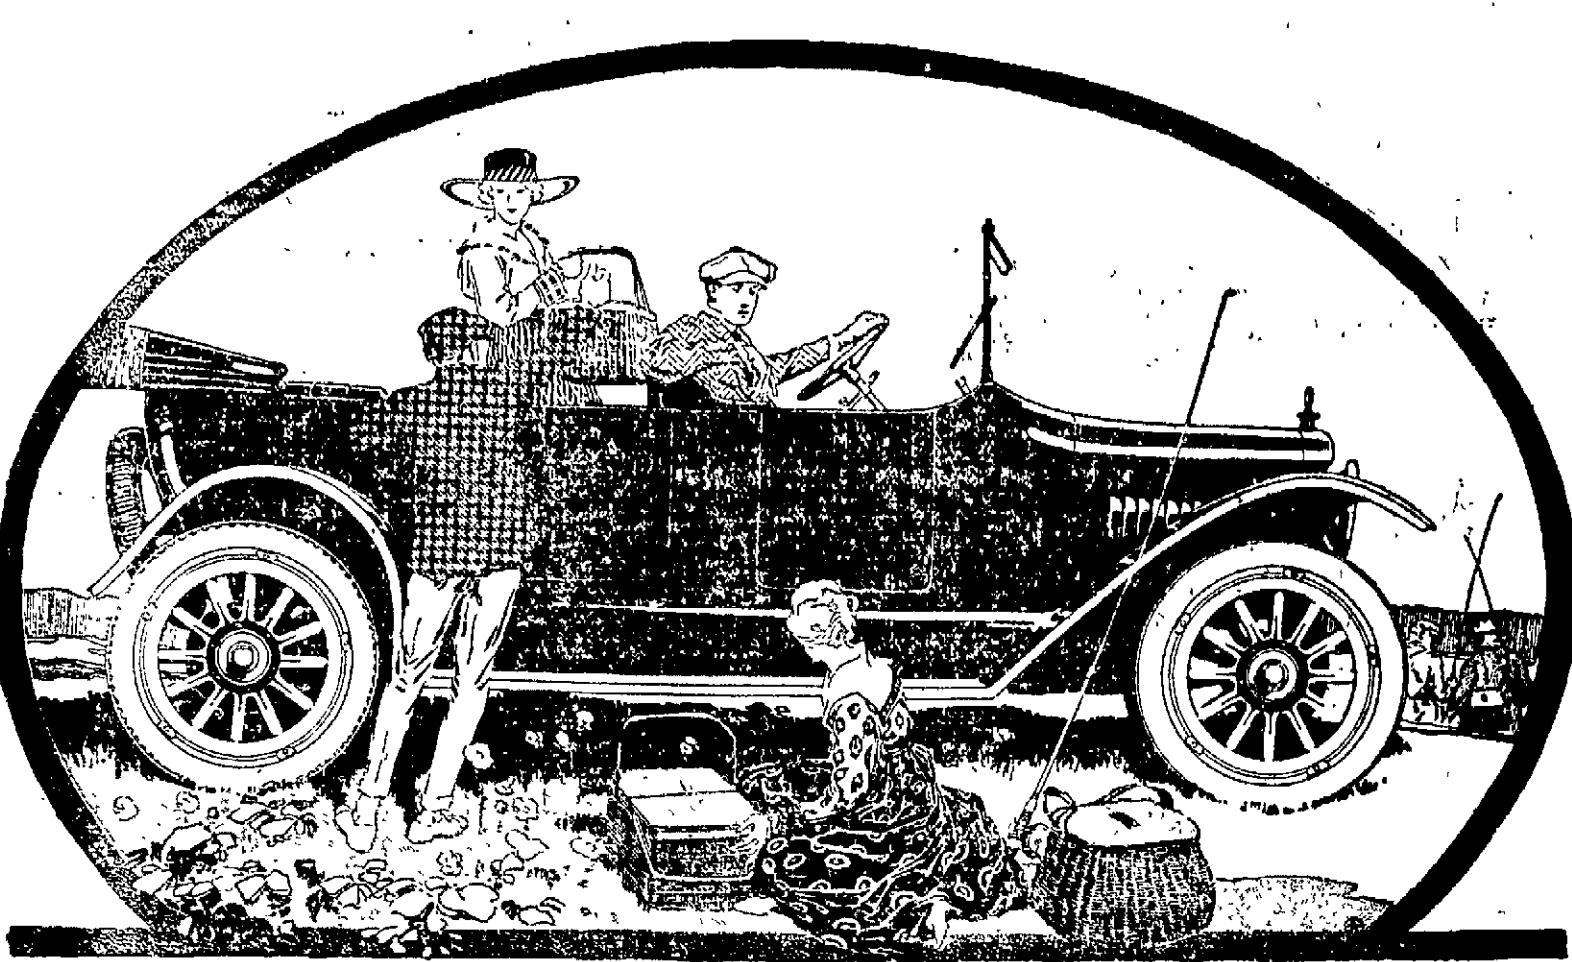

[Associated Press Telegram]
Berlin, April 18, via London.—The number of prisoners taken by the Germans on the French battle front yesterday, according to the official statement issued today by the German army headquarters staff, was increased to more than 3,000 officers and men.

French attacks in the Champagne yesterday over a 12-mile front, the German statement adds, were prevented from reaching the Toulon lines by the Germans' lashing positions. Part of the wood between Moronvillers and Nauroy was taken from French colored divisions which had reached there during the fighting on April 16, 25 of the numerous French armored motor cars were destroyed.

German forces in Macedonia, the German official statement says, drove the French from positions one 110-meter wide on the "Sveta Sona" which were captured in the French last March.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain mulified coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

JUNIOR PLAY MAN FROM HOME GIVEN APRIL 27

The members of the Newark high school class of 1918 are working hard on their junior play, "The Man From Home," which will be presented April 27. This drama, by Booth Tarkington and Leon Wilson has had a very successful career. Its premier production occurred in Chicago September 29, 1907, where it drew full houses for a year. In 1908 it enjoyed a successful season at the Astor Theatre in New York. William Hodge and Olive Wyand created the leading parts, that of Daniel Voorhees Pike and Ethel Granger Simpson. For several seasons two companies toured the United States.

The drama strongly contrasts simple American ideals of honor with those of a decadent European style. The humor is typical of its well known authors. It arises from the contrast between the naive honesty and sincerity of "The Man" and the proverbially dense English stupidity of "the remnants of Greco-Latinism." The cast follows: Mariano, proprietor of hotel, Isadore Rothstein. Michele, a waiter, Wayne Norris. Ribiere, secretary to Grand Duke, John Walker. The Earl of Hawcastle, Wilson. Rosebraugh, Comtesse de Champaign, Pearl Calabaugh. Ethel Granger Simpson, Cornelia Ellis. Don Almeric, Arthur, son of Lord Newcastles, James Miller. Horace Granger Simpson, Donald Power. Lady Greghen, Joel Jones. Valet to Grand Duke, Vernon Cullison. Grand Duke, Vasil Vasilitch. Saul, Schonbren. Daniel Voorhees Pike, Charrock Wilson. Ivanoff, Wendell Postle. Two Soldiers, George Warner and Glenn Berry. Musicians, Fisherman. Flower girls, Members of class of 1918. Prompter, Rachel McLaughlin.

LABOR EXCHANGE TO BE ESTABLISHED BY LOCAL C. OF C.

By long distance telephone the Chamber of Commerce made new application to the state industrial commission at Columbus for one of the later exchanges that are to be established by Governor Cox and the state council for defense.

For the past six months the chamber has been operating at its own expense a labor exchange under the supervision of the State Industrial Commission and using its forms and reports. Daily reports are made to the commission by the local exchange and an application for the state to take it over and operate it on a larger scale was made some time ago.

C. H. Mayhugh, assistant statistician to the commission who installed the local exchange, said that Newark was under consideration and was in a much better state of preparedness for such an institution than a number of other cities. The plan is to put to work the idle and unemployed, either in industrial plants or on the farms.

Success is merely an ability to convince others that you are as good as you think you are.

Sympathy is a form of contagion. When a man is broke, his wife also bursts into tears.

OHIO STATE GRANGE URGES DON ON GRAIN FOR DOZE

Columbus, April 18.—Prohibition of the use of grain in the manufacture of liquor during the period of the war is demanded in a statement issued by the executive committee of the state Grange. The statement also asks that speculation in food products be stopped and that farm boys be exempt from conscription.

The statement made public today was issued following a meeting of the Grange committee. It says that the high costs of seeds and supplies, inability to get prompt shipment of lime, fertilizer and farm machinery and above all the shortage of efficient farm labor constitutes the principal hindrances of farm production. It calls upon all farmers to support Governor Cox in his war program.

'FRISCO REVENUE COLLECTOR OUSTED; VAULT IS ROBBED

San Francisco, April 18.—J. J. Scott, collector of internal revenue for the first district of California, whose office handled nearly \$17,000,000 worth of business last year, is out of office today under an order of temporary suspension issued yesterday by Wm. H. Osborn, commissioner of internal revenue at Washington. No reason for the suspension was made public. Chief Deputy Andrew C. Scott, his brother, was included in the suspension, the office being taken over temporarily by John W. Platt, chief clerk. Special agents of the revenue service are here making an investigation.

In a statement made public today, Scott said a private vault in his office, to which only his brother and himself were supposed to have the combination, had been robbed of \$2,000 in cash, wine tax stamps to the face value of \$8,300 and important papers. Some of these documents, Scott said, bore on the case of B. M. Thomas, former special agent of the internal revenue office under indictment by a federal grand jury on charges of having sold stolen wine tax stamps.

The time of the robbery was fixed by Scott as between March 26 and March 30. Scott, a former newspaper man, was active in the organization of the Democratic campaign of 1912 and was secretary of the California State Democratic Central committee. He was appointed collector in 1914.

EPISCOPAL CLERGY ATTENDS MEETING HERE TUESDAY

The Columbus Convocation of the Episcopal church met at Trinity church in this city yesterday. It opened with a celebration of the Holy Communion at 7:30 a. m. The business session was called to order at 9:45 in the Parish House with Bishop Reese presiding. About 20 of the clergy were present. Reports from parishes and mission stations were heard and a conference on various subjects held. Officers were elected as follows: President, Rev. Lewis P. Franklin; secretary, Rev. A. J. Grunetter; St. John's church, Worthington; treasurer, David Archer, Columbus. Lay member of the executive committee, W. O. Frohock, Columbus.

In the afternoon, an automobile ride was taken around the city to Granville, the Country club and Idlewild Park. Luncheon was served at the Sherwood hotel.

STUDENTS SURPRISE PRINCIPAL BARNES AT HIGH SCHOOL

Prof. O. J. Barnes, principal of the Newark high school was given the surprise of his life this morning, when the students assembled for chapel exercises. Carl Brubaker on behalf of the school made a graceful little speech referring to the arrival of a son at the home of Prof. and Mrs. Barnes and at the conclusion a beautiful baby carriage was presented as the gift of the entire school. The committee in charge of the affair consisted of Carl Brubaker, Frank Isafel, Geo. Arensberg and Harry Woltjen.

Mr. Barnes equal to the occasion in expressing his appreciation of the students' evidence of friendship said that he hoped that his son fifteen or sixteen years hence would show the same loyalty to the high school he would attend as the Newark boys and girls now have for "Newark High."

Dr. Bromley, the evangelist, attended the chapel exercises and gave a splendid talk to the students.

J. H. MILLER NAMED OFFICER BY THE DRYS

Columbus, O., April 18.—Organization has been effected of the new State Executive Committee of the Democratic Dry Federation, and it is now ready for business.

Under the action of the convention James A. Rice, of Canton, was made Chairman. Today it was announced J. Howard Secrest, of Columbus, had been made Vice Chairman and William P. Halenkamp, of Cincinnati, Secretary. Senator J. Henry Miller of Newark, was selected Treasurer. Headquarters have been procured.

THE THEATRE.

The old grind about the theatrical barnstormers that have to travel home via the railroad ties has point nowadays. Traveling companies report poor business, and many go broke, leaving the forlorn players to make their way home as best they can.

A certain proportion of standard companies, charging high prices, still draw crowds and where there is still a demand for high class plays. People should feel the obligation to patronize these standard companies, if they want to preserve the finest things in dramatic art. But the public will not pay one to two dollars to see mediocre shows when they are offered excellent movies for from 10 to 25 cents. The theatre managers have accentuated these tendencies by unclean and suggestive plays that drive away the substantial element.

In former years the outlying circuits have been full of companies asking a dollar to \$1.50 for best seats. Many of these performances were little better than 50 cent repertory companies. The actors raised and saved the air, the actresses screamed and yelled. That kind of thing is far inferior to a really good movie, where you see people standing at the top of the profession.

The field for stage struck young people has narrowed down, or rather has been transferred to the movie stage. Unless they have very distinctive gifts, they would be better off to stay at home and do housework or saw wood.

If they are just ordinarily bright young people, with some little talent for mimicry, dancing, or singing, the loyal amateur field gives them all the glory that is good for them. They will be received with rapturous applause by their friends. Incidentally they will make themselves very valuable by the assistance they give to good home causes.

GUARD DUTY.

A great deal of work which our military forces will be called on to do will seem pretty tedious. The soldier will often wonder what he is there for anyway. As he marches up and down a railroad bridge hour after hour and day after day, with not a thing to arouse his suspicion or to attract his attention, it will seem like a foolish waste of time and money.

There will be a tendency in the dark hours of lonesome nights to take a bit of a rest ending in a snooze. That will be just the time when a plotting foe will come along with his package of dynamite. The catching of such public works like bridges is however a real task and it will call for vigilance, particularly after the novelty has worn off. There have been enough attempts to blow up these structures already to suggest that alien enemies have their eyes on them.

For making itself effective in the great war in which it has entered, the United States needs command of all its resources. Its communications need to be prompt and complete. The destruction of a few bridges on important railroad lines or the blowing up of terminals could produce a great amount of confusion and delay. Temporary structures would have to be used and the

Aunt Caline says:—I was into Doc Carver's office yesterday to get some liniments for Zeke's boil when the door opened up and in came Lotta Gabbe and her mother.

"Doc, I must have some medicine," an' in the very midst of it Doc he stuck one of these here barometers into her mouth an' then began to rattle like mad on a little small piece of paper.

"After a little Lotta says out o' the side of her mouth, 'Doc, how long do I half to keep this here in my mouth? I can't talk.' 'An' Doc he looked up some impatient an' says he, 'In a minute, Lotta, I jest wanted a chance to rattle this here subscription without no interruption,' he says, which Lotta is a offie talker."

During the course of one day, a teacher tells us, questions in a half a dozen branches of learning were asked of a certain local class of children. It was a general review, after the Easter holiday. And among the questions were these four:

Define the first person. Explain the composition of the blood. What is meant by capital punishment? What is a "Job's comforter"?

And one pupil had these four answers:

The first person was Adam. Blood is composed of red corkscrews and white corkscrews.

A Job's comforter is what you put in a baby's mouth to keep it quiet. Capital punishment is killing people.

United States "Falls In." (New York Independent.)

The first and the greatest republic in the world enters the Great War to take its part in making the whole world safe, free and law-abiding. We have incurred the verdict of civilization: this is a clean-cut conflict between righteous liberty and satanic absolutism.

Never has a declaration of war been so impressive. Never has it been so overwhelmingly the calm decision of a mighty people. For two and a half years we have withheld governmental judgment upon the fundamental issues. We have endured insolence, piracy and murder, unwilling to act ignominiously in vengeance. Not even to the growing menace to our own national safety have we paid heed. But conscience has not been dead, and under its lashings the entire republic of more than one hundred million souls has now become convinced, as some of our people from the beginning have been convinced and tirelessly have urged upon our fellow men, that a simple question of right and wrong has once for all to be answered. Therefore we answer. As one man this mighty republic has responded to the call, and has cast the die.

Never has a nation gone into war so disinterestedly or with hands more clean. We ask nothing, we stand ready to give all. We cherish no hate. We scorn revenge. For the German people we cherish the hope that through moral regeneration and intellectual clarification they shall become worthy and competent to take their place and play their part among the great democracies of continental Europe. We have but one purpose—to kill and to crush beyond all possibility of resurrection the monstrous infamy of blasphemous absolutism. Co-operating with the Entente Allies, we dedicate our resources and ourselves to the glorious work, precisely defined by President Wilson, of making this world a safe place for free men to live in.

A free and law-abiding world: that is the end, and it will be achieved. Of the causes of the war we no longer entertain a doubt. In its purpose no people will henceforth be more profoundly concerned. Not hastily, but after full and fair review of all the evidence in the case, we are satisfied that the war was painstakingly planned and deliberately begun by a dynasty and a military caste with intent to destroy democratic institutions, and to establish despotism throughout the world. The attempt was made too late. The czar has fallen. The Kaiser and the Hohenzollern house, the Austrian Emperor and the Hapsburg house will fall.

By our participation in the war its days will be shortened, its slaughter and its devastation will be lessened. It is a work of mercy no less than a righteous cause that we undertake. We shall help to make it a war of victory, not that of an unconditional surrender by an Imperial Government which has brought upon mankind unforgivable wrongs, and whose existence can no longer be tolerated. Peace, when it comes, must be the peace that has in it the seed and the promise of life: a peace

for the healing of the nations, and not another armed truce. It must be the peace of a free and law-abiding world. With clear minds, with courage, and at whatever cost we, the American people, now "fall in," and touching elbows at last with all the free and law-abiding men of the civilized world we go forward gladly to that victory.

Not hastily, but after full and fair review of all the evidence in the case, we are satisfied that the war was painstakingly planned and deliberately begun by a dynasty and a military caste with intent to destroy democratic institutions, and to establish despotism throughout the world. The attempt was made too late. The czar has fallen. The Kaiser and the Hohenzollern house, the Austrian Emperor and the Hapsburg house will fall.

By our participation in the war its days will be shortened, its slaughter and its devastation will be lessened. It is a work of mercy no less than a righteous cause that we undertake. We shall help to make it a war of victory, not that of an unconditional surrender by an Imperial Government which has brought upon mankind unforgivable wrongs, and whose existence can no longer be tolerated. Peace, when it comes, must be the peace that has in it the seed and the promise of life: a peace

for the healing of the nations, and not another armed truce. It must be the peace of a free and law-abiding world. With clear minds, with courage, and at whatever cost we, the American people, now "fall in," and touching elbows at last with all the free and law-abiding men of the civilized world we go forward gladly to that victory.

United States "Falls In." (New York Independent.)

The first and the greatest republic in the world enters the Great War to take its part in making the whole world safe, free and law-abiding. We have incurred the verdict of civilization: this is a clean-cut conflict between righteous liberty and satanic absolutism.

Never has a declaration of war been so impressive. Never has it been so overwhelmingly the calm decision of a mighty people. For two and a half years we have withheld governmental judgment upon the fundamental issues. We have endured insolence, piracy and murder, unwilling to act ignominiously in vengeance. Not even to the growing menace to our own national safety have we paid heed. But conscience has not been dead, and under its lashings the entire republic of more than one hundred million souls has now become convinced, as some of our people from the beginning have been convinced and tirelessly have urged upon our fellow men, that a simple question of right and wrong has once for all to be answered. Therefore we answer. As one man this mighty republic has responded to the call, and has cast the die.

Never has a nation gone into war so disinterestedly or with hands more clean. We ask nothing, we stand ready to give all. We cherish no hate. We scorn revenge. For the German people we cherish the hope that through moral regeneration and intellectual clarification they shall become worthy and competent to take their place and play their part among the great democracies of continental Europe. We have but one purpose—to kill and to crush beyond all possibility of resurrection the monstrous infamy of blasphemous absolutism. Co-operating with the Entente Allies, we dedicate our resources and ourselves to the glorious work, precisely defined by President Wilson, of making this world a safe place for free men to live in.

A free and law-abiding world: that is the end, and it will be achieved. Of the causes of the war we no longer entertain a doubt. In its purpose no people will henceforth be more profoundly concerned. Not hastily, but after full and fair review of all the evidence in the case, we are satisfied that the war was painstakingly planned and deliberately begun by a dynasty and a military caste with intent to destroy democratic institutions, and to establish despotism throughout the world. "I FEEL FRESHER IN THE MORNING"

Newark Man Thanks Employer For Advising Tanlac.

GETS RESTFUL SLEEP NOW

George B. Franklin, 48 Vine street, Newark, is a good friend of Tanlac.

"Where did you hear about Tanlac and how did it help you?" he was asked.

"Mr. Keeley, my employer, told me how Tanlac had helped him, and I'm glad to say it relieved me of trouble with my stomach," he answered.

Mr. Franklin is foreman for M. T. Keeley & Son, street contractors, 116 Jackson street.

"Before I took Tanlac my stomach worried me a great deal," he continued. "Every time I ate a meal I felt bloated. Sometimes I was short of breath and my heart palpitated."

"That was not all. I couldn't sleep soundly. I got up in the mornings with a bad taste in my mouth and a headache. I had scarcely enough ambition to move. My spirits were low. Nothing seemed to go right."

"I have used Tanlac but a short time, and it has already relieved me of that fulness after eating. I can eat what I want and know it will not hurt me."

"Headaches and dizzy spells are all gone now. I sleep better at night and feel fresh in the morning."

"I think Tanlac is a great tonic. It helped me so much and in so many different ways that I want all my friends to know about it."

Tanlac may be obtained in Newark at W. A. Erman's drug store and in the following nearby towns: Alexandria, C. M. Gilmore; Pataskie, F. R. Strider; Granville, W. P. Ullman; Hebron, Hebron Drug Co.—Advertisement.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

Upon—Besuden.

At 8 o'clock, Tuesday evening was solemnized the marriage of Miss Juliet Besuden and Mr. Howard H. Upson at the Besuden home in Hudson avenue.

The house was decked with spring lilies and southern smilax and in the living room the fire place had been arranged with white and covered with southern smilax and lilies. A white satin priedieu flanked on either side with large candelabra bearing seven candles formed the altar.

The marriage service was read by Rev. Father B. M. O'Boylan, pastor of St. Francis de Sales church.

The bride was gown in white tulle with an overdrape of silk lace caught with orange blossoms. A full length train of white broadcloth satin was caught at the shoulders and the bridal veil was arranged with forehead band of orange blossoms. The bride's bouquet was of orchids and lilies of the valley.

The only attendant, Miss Annette Besuden, wore orchid tinted tulle with French blue panners and girdle and carried pink and white lilies. Mr. Upson's best man was his brother, George D. Upson.

The dining room appointments were white candles in silver holders being used and the bridal table was centered with white sweet peas and roses. The house was entirely lighted by candles and a stringed orchestra furnished music.

Mr. and Mrs. Upson left for a motor trip and on their return will be at home in 584 Hudson avenue.

The bride is the daughter of Mr. and Mrs. Edwin E. Besuden of Hudson avenue and she was graduated from the Newark High school. Mr. Upson is a graduate of Denison University and is a member of the Phi Gamma Delta fraternity.

Friends entertained with a shower for Miss Wilda Gaub Monday evening at her home, 76 Oakwood avenue. Those present were Mrs. Burnelle, Mr. Brown and daughter, Mrs. Tuckey and son William, Mrs. Loughman, Mrs. Nairn, Mrs. Harris, Mrs. Dayton, Mrs. Lewis, Misses Mabel, Emma, Lloyd, Laura, Cosgrove, Mabel Cummings, Cora Downey, Lucy Downey, Mabel Nairn, Anna Nairn, Indus Vance, Irene Johns, Pearl Brown, Regina Billinglea, Kate Burnelle.

The members of St. Ann's society will meet Thursday afternoon at the home of Mrs. Charles Lewis, in 34 Mahoning street.

Tuesday evening the Court House male quartet, composed of Attorney Jos. W. Horner, Attorney Edward Kibler, Sr., clerk of courts Bert O. Kibler, and Irving B. Warthen, was entertained with a six o'clock dinner at Granville by the Omega Pi Epsilon fraternity. The evening was spent in singing by the quartet and chorus, and instrumental music of various kinds. The fraternity has moved into its new home recently purchased being the former residence of Judge John M. Swartz. It is a large house of 16 rooms and elegantly furnished.

The Omega Pi Epsilon boys have one of the best college male quartets in the state and the fraternity is growing rapidly in Granville and has for its members the real live wires in the college.

Later in the evening the two quartets serenaded the young women of the college, who occupy the dormitories, and were rewarded by an electric display from the windows of dozens of flashlights.

The Brightening Circle of The King's Daughters will meet on Friday afternoon in the A. F. F. W. room in the Y. M. C. A. to sew for soldiers.

On Thursday afternoon Miss Mabel Jones will entertain the members of the Thursday Afternoon Sewing club at her home in West Church street.

Mrs. Robbins Hunter is entertaining with a bridge luncheon at Mountbushers Country Club on Thursday afternoon.

The members of the Recreation club and a number of friends enjoyed a delightful dancing party at the K. of P. hall on Tuesday evening.

Granville

[Special to The Advocate]

Granville, O., April 18.—More than 60 members attended the spring meeting of the Zanesville Presbytery held here on Monday and Tuesday, in the Presbyterian church. The opening sermon on Monday afternoon was delivered by Rev. S. S. Bergen. Reports of committees, elections and other routine business received attention. At noon on Tuesday the ladies of the church furnished an excellent dinner for the ministers and elders which abundantly sustained the reputation of the church for generous hospitality and the visitors were favored with an automobile rides before their departure.

Born to Mr. and Mrs. Henry Eaton of Burlington, Iowa, on April 16th, a daughter named Nanette Hazel Eaton. Mrs. Eaton was Miss Hazel Eaton, younger daughter of Mr. and Mrs. James A. Huston of the Columbus road.

Mrs. J. W. Rohrer opened her home today in welcome to the members of the Winter Picnic club.

Among the Granville people who attended the Methodist district missionary meeting held in Grace Methodist church in Zanesville yesterday were: Rev. and Mrs. Otto Giesen, Mrs. L. W. Perry, Mrs. Harry Howe, and Mrs. W. D. Kenney, who report an enthusiastic and interesting session.

Judge B. F. McCann of Dayton, is attending the meetings of the Denison board of trustees.

Dr. A. D. Cole of O. S. U., former head of the Physics department in Denison is among those present at the meetings of the D. U. board.

A BRIDE OF YESTERDAY

The wedding of Miss Juliet Besuden and Mr. Howard H. Upson was solemnized at the home of Mr. and Mrs. Edwin E. Besuden, 464 Hudson avenue Tuesday evening at 8:00 o'clock.

as house guest Mr. Wallace Cathart of Cleveland, who is attending the meetings of the Denison board, and visiting his two daughters who are students in Shepardson college.

Franklin D. Smith of Cleveland is the house guest of Rev. and Mrs. Millard Brelsford, while attending the Denison board meetings.

E. A. Deeds of Dayton, member of the committee on building and grounds, of the Denison board, who had expected to attend the meetings last night and this morning, was summoned to Washington for an important conference.

President and Mrs. C. W. Chamberlain are entertaining W. D. Chamberlain of Dayton, a member of the board of trustees.

About 30 of the Denison trustees were present at dinner in Shepardson Commons last evening as guests of the college. The affair was delightful in every way.

C. M. Peters of Cincinnati, chairman of the board of trustees, Mrs. Peters, and Mr. and Mrs. Fred Beaver of Dayton have been guests of the Buxton House, Tuesday and Wednesday.

The many friends here of George Pratt of Philadelphia, Pa., will be interested to know he has enlisted in the navy and expects to be called out this week for coast defense along the Atlantic. He has recently graduated from the West Philadelphia High school for boys, taking first honors in a class of over one hundred. Mr. Pratt is a nephew of Mrs. Edward Wright.

Miss Susan Maxwell Moore, dean of Women in the University of West Virginia at Morgantown and formerly the popular head of the piano department in Denison Conservatory, writes of the pathetic doings among the college boys in Morgantown, where the 600 cadets under military training, with a large and very good band, get out and parade the streets, with people standing in their yards and applauding them as they pass.

On Friday afternoon the women of the Baptist church will be entertained by Mrs. Albert Norris, Mrs. C. D. Coons, Mrs. Oxreider, and Miss Charlotte Clark. Mrs. George H. Reece will speak on "Great Paintings of Christ." All are invited. A general invitation is extended to the program in Recital Hall tonight by the pupils of the conservatory. The reception at the conservatory is only for those holding cards.

Milady's Boudoir

Chest Development.

To enlarge or develop the chest one must increase the actual size of the lungs, or, in other words, expand their unused portions. One should frequently inhale long and deep breaths, followed by slow exhaling exercises.

One should also take a lesson from children and indulge in hopping, skipping, jumping a rope, or running. Such movements cause deep respiration, also bring into motion such large masses of muscles as those in the legs and thighs which demand large supplies of blood circulation and quick action of the heart to supply it, these exercises require deep inspirations, the lungs are thus stimulated to activity their size is increased, which in turn expands the chest.

Exercising exercises which may be practiced with benefit is taken as follows: Lie flat on a couch or floor, extend the arms over the head; in this position inhale deeply through the nostrils while counting ten, hold the breath in equal length of time and then slowly exhale through the lips.

Nearly every movement of the arm calls into action certain chest muscles, but many of them are not sufficiently vigorous to cause development. Standing, feet slightly separated and resting both arms from the side until they reach an angle of about seventy-five degrees, palms turned inward; the arms are then carried slowly backward and downward, at the same time turning palms so that the thumbs point forward and down and then backwards and down, and the arms describe a circle, finishing at the side.

Our Boys and Girls

The best clothes are those cut on practical lines, those with few sections and seams, garments not only easy to make but easy to launder as well.

Clothing cut on good lines, and made of good substantial material of pleasing color, neatly sewed and finished, are really the only type of clothes that stand for good dressing. More and more it is becoming bad taste to dress children in fussy, poorly-made clothes, trusting to ornaments for their attractiveness.

Very often a woman sensibly selects one type of dress for a small child and makes all the little garments by this one pattern, depending upon the difference in material and the application of a little hand embroidery or of braiding for the desired distinction between every day clothes and Sunday-go-to-meeting garments. Surely this is a saving of time and effort and to the elimination of fitting are points in favor of this plan, but even those difficulties may be reduced, when this plan is not followed, by a careful section of various patterns.

Every Day Etiquette

"If I do not care to send out cards to friends to announce the birth of my child what should one do?" was Mrs. Newmother's query.

"Notes can be written to one's intimate friends or the announcement may be made through the newspapers," said her aunt.

Answer and Cross Petition.

In the case of Zebba Taylor vs. A. A. Taylor, the defendant has filed an answer and cross petition. He admits their marriage on Sept. 16, 1914, and denies each and every other allegation. He files a cross petition in which he alleges that plaintiff practiced deceit upon him and asks that her petition be dismissed and that he be granted the divorce.

Divorce Petition.

Maud Stoughton has filed a petition in common pleas court asking that she be divorced from Fred Stoughton on the grounds of willful absence and neglect. They were married April 15, 1901, and are the parents of two children aged 15 and 13 years.

Common Pleas Notes.

In common pleas court yesterday, the jury heard evidence in the case of John Allen vs. David Powers, et al. The suit was brought to recover damages for taking a horse under a writ of attachment. The petition charges that the horse, after being taken by the constable, was not given proper food and exercise, and that it died because of this alleged negligence.

B. G. Smythe vs. Horwitz & Horwitz, assigned for hearing Saturday morning next. A suit asking for an injunction to restrain defendants from operating a junk shop at the corner of 4th and Locust streets this city.

Citizens Bank vs. Brown Realty Co., passed on account of absence of a material witness.

Bennett Hughes vs. John L. Hughes, trial passed.

In the case of John Allen vs. David Powers, the jurors returned a verdict for the defendant. Plaintiff sued to recover damages growing out of the levy of a writ of attachment upon a horse owned by plaintiff. It was claimed that the man holding the horse during the pendency of the attachment proceeding did not take proper care of the horse, and that it died.

The case of James E. Lingafelter vs. Mary E. Moeley a suit upon an account, was continued.

For Thursday: Nappel Clouse vs. Byron Ashbrook, and Chas. M. Buker vs. Harry Bailey. Thurston: M. Thorp vs. Emily Smith, passed to the latter part of the assignment.

PHOSPHATE GAINS FAVOR WITH DOCTORS IN TREATMENT OF WEAK, NERVOUS "RUN-DOWN" CONDITIONS

NOTED AUTHORITIES IN EUROPE AND AMERICA UNITE IN URGING WIDESPREAD USE OF GREAT NERVE TISSUE BUILDING SUBSTANCE

Report Some Astounding Results

Since the publication of investigations of Robin, physicians and specialists in increasing numbers have adopted and recommended for depleted, nervous energy, the use of that organic phosphorus now known among druggists as bitro-phosphate. In recent years leading British, French and American clinicians and specialists have reported some extraordinary results from the use of this organic phosphorus. In all cases of nerve weakness, such as neurasthenia, sleeplessness, old age, lack of physical endurance, loss of memory, excessive fatigue or occupations necessitating great mental strain or long hours, one 5-grain tablet of bitro-phosphate should be taken with each meal, thus supplying directly to the brain and nervous system the necessary life giving phosphorus. Being a nerve tissue builder that is readily assimilated by the most delicate stomach and not a dangerous drug or stimulant, the effects are gradual, but in a few days the eyes become brighter, nerves steadier, endurance is increased, sleep returns to the sleepless, the people put on flesh and the entire system begins to overflow with that vim, vigour and vitality that make life truly worth living.

Note: Bitro-Phosphate mentioned above is one of the reliable preparations that should be universally prescribed by physicians. It is dispensed by Dr. W. W. Smith, W. A. Erman and other first class druggists everywhere. Advertisement

CANCELLED PUBLIC INSTALLATION OF MOOSE OFFICERS

Announcement was made this morning that the public installation of officers for the Moose lodge, set for tonight at the Pythian Castle, had been cancelled. The action was taken because of the unsatisfactory condition of the uniforms for the drill team which were received today. It was found that the trousers of many of the suits were several inches too short.

Announcement also was made that a military drill will be given about the middle of May. On this occasion the drill team will appear in full uniform. A special committee also is arranging for a number of automobiles to take the members of the team to Columbus on May 3 to attend the Central Ohio May fete, given under Moose auspices.

In place of the public installation set for tonight, the regular installation will be held in the lodge room in the Pythian Castle. Only those who will be admitted. The committee regrets having to change the plans at the last minute but the action was unavoidable.

Chicago Grain.
(Associated Press Telegram)
Chicago, April 18.—Enlarged estimates of the amount of wheat available in Canada had a bearish effect today on the grain market. The market was unsettled and tended at first to give the bears advantage. Opening prices, which ranged from the same as yesterday, fell to new lows. Change in prices was due to additional declines and a general upturn, although July and September were relatively easy as compared with May.

May wheat acted very light and advanced 2 1/2 c, a rise of 15c from the early low point. Evidence of renewed buying was shown on a late point to early July as well as May. The close was unsettled, 2 1/2 c to 3 1/2 c higher with May at 2 1/2 c to 2 3/4 c and July at 2 1/2 c to 2 3/4 c.

Corn declined and rallied with wheat. At 10:00 a. m. it was 1 1/2 c off the market. It sagged a little further and then advanced. The market rose to well above yesterday's close.

Buying of May and selling of September was a feature. The market was strong at 3 1/2 c to 3 3/4 c advance. (Cons average higher on account of large purchases for feeding houses.) Weakness of the local market depressed provisions. Lard led the decline.

offset by a break of 6 1/2 points in Detroit Edison Co. At midday most gains were largely surrendered. Bonds were steady.

With few exceptions all forenoon gains were offset in the last hour, the list opening on increased weakness of motors and other specialties. The closing was irregular.

Featuring the decline of speculative issues at extreme recessions of 2 to 5 points proved an offset to the firmer tendencies shown by rails and seasonal industrial issues in the professional operations. Sales were estimated at 525,000 shares.

TO FURNISH FARM HELP.
(Associated Press Telegram)
Columbus, April 18.—Labor exchanges to furnish farm help are to be opened in 21 Ohio cities as soon as plans formed yesterday may be put into execution. Mayors of the cities designated will meet in Columbus this afternoon with Governor Cox and members of the several divisions of the state defense council.

The cities to open labor agencies are Akron, Athens, Canton, Chillicothe, Cincinnati, Cleveland, Columbus, Dayton, Hamilton, Lima, Mansfield, Marietta, Marion, Newark, Portsmouth, Springfield, Steubenville, Tiffin, Toledo, Washington C. H., Youngstown and Zanesville.

At a meeting of the state council for defense last night war was declared on loafers. The governor announced following the meeting that he will order strict enforcement of state and municipal vagrancy laws and that all idlers will be put to work on conservation work.

ALHAMBRA.

Tonight and Tomorrow.
It is a World Picture in which Miss Alice Brady will be seen at the Alhambra theatre tonight. The dance scenes in this picture are startling and beautiful. Miss Brady, herself, appears in the leading role in all of them and she is supported by Alexis Kosloff, the famous Russian dancer. Miss Brady, by the way, took ninety-one dancing lessons so as to be absolutely perfect for these scenes.

Friday and Saturday.

According to wireless advice, Sessue Hayakawa, the Lasky-Paramount star who will be seen at the Alhambra on Friday and Saturday in a picture of the famous story, "The Bottle Imp," had a gay time when he and his company, under the direction of Marshall Neilan, were crossing the ocean bound for Honolulu.

GRAND.

If you saw Baby Marie Osborne, Pathé's child star, in "Little Mary Sunshine," "Shadows and Sunshine," "Joy and the Dragon" and "Twin Kiddies," you will lose no time in going to the Grand theatre on Thursday and Friday, when her latest picture, "Told at Twilight," is to be shown. Here we have Baby Marie Osborne again in a picture that gives her many an opportunity to display her delightful childishness and genuine ability. It is a clean, beautiful picture, an attraction for every day in the week.

This time she makes her way into the home and the heart of a melancholy old millionaire and incidentally saves her father from all sorts of trouble by her intimacy with the old gentleman.

The fact is that the baby star is never called upon to do anything artificial. Her parts reflect the life of a child with no little show of realism and her inborn talent to banish all thought of self-concern while before the camera does the rest.

AUDITORIUM:

"Purity."

"Purity," a drama starring Audrey Munson, famous artists' model, to be shown at the Auditorium theatre tomorrow, Friday and Saturday, is a three-act drama of rare charm, introducing the world's greatest artists' model and famous beauty.

Thornton Darcy an idealistic poet, is at work upon allegorical poem which he calls "Virtue." He devotes the first part of it to picturing the idyllic state of the earth prior to the advent of evil in which Virtue is the world's guiding spirit. Virtue is represented by a beautiful woman artlessly adorned and loved by everyone.

In the second part he introduces the Greek myth of Pandora, who releases evil on the world.

Finishing the work for the day, Darcy falls into a light doze, and upon awakening he discovers that his dream girl has come to life in the person of a young woman clad in the simple home-made dress, kneeling

ing on the bank of a stream gathering flowers. They become acquainted and he finds that her home is Purity Worth and lives in the woods in a humble secluded house. She makes an innocent appeal to Darcy,

as he does to her, and after several meetings they become engaged, in spite of the fact that there is no immediate prospect of marriage, owing to Darcy's reduced circumstances. He later succeeds in meeting Purity, and makes her

and the publisher will not print them for less than \$500.

Claude Lamarque, a painter strolling in the woods, sees Purity bathing in a stream. He later succeeds in meeting Purity, and makes her

an offer to pose for him. She refuses, but accepts his card. Purity receives word from Darcy that he is ill, begging her to come to see him. His final effort to publish his books has met with refusal.

Unselfishly seeking to aid him, she goes to Lamarque, secures \$500 in advance with a promise to pay him by posing for him, and at once turns it over to the publisher to bring out Darcy's book. She binds the publisher to secrecy. Darcy is confined to his bed with a siege of illness and is only saved from death by the happy turn. Purity guards from him the secret of her share in it.

In the meantime she poses for Lamarque. Through his interest in her, he secures an engagement for her to pose in imitation of statuary at a fête given by a fashionable widow.

No sooner is Darcy's book published than it excites attention and praise.

In the meantime Luston Black, an acquaintance of Lamarque, having caught a glimpse of Purity posing for the artist, has become infatuated.

Darcy, accepting an invitation to visit Lamarque, comes into the studio while Black is pressing his attention upon Purity. He soundly thrashes Black, who taunts the poet with the fact that his fiancée is posing in the nude. Darcy will not believe it. Purity acknowledges the truth. Darcy will not listen to Purity's explanations, and casts her off.

A short time later Darcy sees Lamarque's finished picture of "Virtue." Darcy is quick to read the great truth that the picture is intended to convey, and upon learning that Purity was responsible for his poems being published, hastens to her. They are happily reunited. The attraction will be at the Auditorium Theatre for three days only, beginning tomorrow and concluding Saturday, performances to be continuous from 1:30 to 11:00 p. m.

"The End of the Tour."

Large crowds yesterday viewed the Auditorium program, by the way a most excellent one, to see Lionel Barrymore in "The End of the Tour," a Metro photoplay in five reels. Good comedy and plenty of live action makes it one that should please all. Mrs. Vernon Castle in the third episode of "Patria" is also seen to advantage. One of the stirring things seen in this episode is the jumping of Mrs. Castle from the deck of an ocean steamer in mid-ocean and swimming to a launch several hundred yards away. "Patria" is proving one of the greatest drawing cards that the Auditorium has had for some time and the crowds simply go in rapture over Mrs. Castle's gown, which are one of the big features. The last showings of both "The End of the Tour" and "Patria" will be seen today.

"Record Breakers."

Jack Reid and his famous "Record Breakers" will be the offering at the Auditorium next Monday in an entirely new show, that is said to be one of the most pretentious produc-

tions ever offered in burlesque. The entertainment is announced as a revue in two acts, with numerous scenes, cleverly introduced disclosing elaborate scenic effects and a wonderful display of the latest designs in stage costumes. Jack Reid will play the principal comedy part assisted by a large cast of well known artists, including Alvora, the wonderful European dancer, who will offer for the first time here a series of dances that are said to be most fascinating and in which the entire chorus will take part. Reid has earned the distinction of having one of the best choruses in burlesque, and this season it is said that he has gathered around him the prettiest girls in burlesque. Seats on sale Friday.

Books Great Play.

Manager Fenberg of the Auditorium theatre announces that he has booked the Seven Deadly Sins, the newest thing in motion pictures, starring Ann Murdock, Holbrook Blinn, Shirley Mason, Vance O'Neil, Charlotte Walker and George LeGuere.

This great motion picture, attraction consists of seven features of five reels each. Every feature is a complete drama, but the seven are connected by the love story of two young folk played by Shirley Mason and George LeGuere.

DOCTOR SAYS NUXATED IRON WILL INCREASE STRENGTH OF DELICATE PEOPLE 200% IN TEN DAYS

In many instances—Persons have suffered untold agony for years suffering from nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a Boston physician who has studied widely both in this country and in the great European medical institutions, said: "If you were to make an actual blood test on all people who are delicate you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all the multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin, another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some are fussy and irritable; some are thin and nervous but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only weigh you down and vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired.

Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were all the time double and even triple their strength and endurance and entirely free of all their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days. This simple use of nuxated iron in the proper form, and this after they had in some cases been doctoring for months without obtaining any benefit. You can talk to your doctor about the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound healthy flesh on your bones. It is also a great nerve and stomach tonic. It is the best blood builder in the world. The only trouble was that the old forms of inorganic iron like tincture of iron, iron acetate, etc., were so harsh on the stomach that their stomachs were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated iron, for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they will forfeit \$100.00 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks. They also guarantee to have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by Wm. A. Erman and all good druggists.

Amazing Power of Bon-Opto To Make Weak Eyes Strong Doctor Says It Strengthens Eyesight 50 per cent in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Victims of eye strain and other eye weaknesses and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses, and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The glasses I had seemed heavy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even a fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes, which induced severe headaches. I have worn glasses for several years, both for distance and work, and without them I could not read my own name on an envelope or the type written on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the letters on the trees across the street now. I feel like a new man. I have looked like a dim green blue to me. I cannot express my joy at what it has done for me. It is believed that thousands who wear glasses can now discard them in a reason-

able time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription at home. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: Another prominent physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mist glasses. I can highly recommend it in case of weak, watery, itching, smarting, burning, red eyes, redness, vision or eye inflammation from exposure to smoke, sun, dust or wind. It is one of the very few preparations I should be kept on hand for regular use in almost every family. Bon-Opto, moreover, is not a patent medicine or a secret formula being printed on the wrapper. The manufacturers guarantee it to strengthen eyesight in one week's time in many instances or refund the money. It can be used on any good druggist and is sold in this city by T. J. Evans and other druggists.

"In a Few Minutes Away Go Blackheads"

"You Never Saw Anything Like It, Girls, and Here Are Some Other Beauty Secrets Just as Wonderful," Says Valiska Suratt.

By Valiska Suratt.

HONESTLY, it gives me the "fad-gets" every time I hear of or see anyone trying to pinch out blackheads. You can squeeze out a large one once in a while and there's no damage to the skin, but when you try to squeeze out the thousands of little ones that are so firmly imbedded in the skin that you have to disfigure your face to get them out, it is time to stop. You can't get them all out by pinching the face—it's impossible. And it is unnecessary. I have proven it to be unnecessary. You can get rid of them in three minutes. If you will take the little trouble to do it, you'll be able to see a blackhead when the three minutes are up. It's wonderful what you can do by sprinkling a little powdered nerosin on a sponge and rubbing the blackheads with it for a few minutes. It does what nothing else in the wide world can do—gets rid of them all, big and little ones. Just try this right away, get the nerosin at the drug store. Don't steam the face because that makes the pores large and it does not do a particle of good for removing blackheads.

ANSWERS TO QUESTIONS

MISS DOUBLE M.—Your hair ought to stop right away from falling if you will use my hair formula. This has certainly cleared things among my friends. Every one who has tried it says it is perfectly astonishing how it makes hair grow and stops hair falling. Get one ounce of betadine from your druggist and mix it with half a pint of water and half a pint of alcohol. If you prefer, use a full pint of bay rum instead of water and alcohol. Use this every day, and your hair will come true.

MISS HAPPY—I knew that hair formula would make your hair grow fast. Now about the dandruff. You know soap and the common shampoos you buy all have alkali. That hurts hair and never stops dandruff. Try a teaspoonful of betadine in a cup of water and use as a head-wash. It dissolves away all scale, grease and dandruff. It's wonderful for that. Ekrol will cost twenty-five cents—enough to make about twelve shampoos. There's nothing as good.

MISS M. G. H.—One, two, three. That's almost as fast and as easy as my superfluous hair formula gets rid of superfluous hair. You never saw anything like it in your life. Just moisten the hairs with sulfo solution and see them shrivel and dissolve away. I wouldn't use the burners or so-called superfluous hair removers sold for anything! They burn, redden and irritate the skin badly. This is safe on any part of

the body. You'll be more than satisfied.

FORM X.—Sorry, but I can't promise you surely that your bust can be developed. Nobody can do that. Nevertheless, there's one thing that will do it if anything can, and that's a mixture of two ounces of ruetone and half a cup of sugar in a half pint of water. You take two teaspoonsful after each meal and at bedtime. Ask for ruetone from your druggist.

MRS. B. D. S.—It makes me happy every time I give this wrinkle formula. It does so many wonderful things. You'll hardly have a wrinkle in your face after a few days use of this cream, which you make yourself at home in a few minutes. Two ounces of cologne, one tablespoonful of glycerine in half a pint of water. Here you are. Your skin will get a mixture of redness and a few wrinkles, not how old, but how young you look.

MISS MUDDY—Instead of their calling you "muddy" they'll call you "dixie." Mark my word, and that'll be quick too. My complexion cream is what my friends call the "modern miracle." It clears up a complexion in a wonderful way. It's simple and economical. Nothing costs it on earth that I know. One ounce of zintone and two tablespoonfuls of glycerine, both mixed in a pint of water, makes up the cream. Apply once a day at least. All mud, dandruff, spots and freckles vanish like magic.

ANNETTE G.—Well, it just happened your druggist didn't have just then the cream for the head-wash and for removing dandruff. Whenever this happens, send the twenty-five cents to "Secretariat to Valiska Suratt, Thompson Bldg., Chicago" and it will be sent to you at once.

MISS JANIS T.—One might as well buy chalk as any of the face powders so commonly sold. It's a "fright." I'll say nobody can get as good a face powder on earth as what I have made for myself after my own formula. It's so fine it's like silk and is invisible. It has no chalkiness whatever. It is being sold now for fifty cents in drug stores as "Valiska Suratt Face Powder." In flesh, white and brunette tones.

GOV. COX DECLARES WAR ON LOAFERS MUST GO TO WORK

Columbus, April 18.—Governor Cox and the state council for defense have declared war against corner loafers and other idlers, who consume, but don't produce.

As soon as the proposed 21 employment agencies, to furnish labor for farms, can be organized and opened, perhaps not later than the first of next week, the governor will order a strict enforcement of state and municipal vagrancy laws.

Idlers will be picked up by police and other officials. Those that can be trusted sufficiently to be given civilian employment then will be released under suspended sentences. All others will be put to work by the cities as prison laborers.

"The bums who eat, but don't produce, must go," said Governor Cox. "Some probably will attempt to run to other states, but the chances are they will be picked up there in the same way."

SUGGEST LARGE GARDEN OPERATED BY CITY PRISONERS

It has been suggested to the Advocate that it might be a good plan for the city to lease a tract of land for garden purposes and then work it with prisoners sent to the city. The experiment undoubtedly might be a good one. Take the regular in police court, open air exercise of work in the garden might accomplish wonders for him. He would become addicted to work, something he seldom does, and after becoming used to it, might decide to stick.

Then there is the common drunk, a harmless individual, except to himself, who stands around the barrooms the greater part of the day, looking for some one to buy him a drink. He would make a good recruit as would the gentle "moocher" who comes up to you and gently requests the loan of a quarter as some of the boys want to have a little party and are broke.

His place ought to be in a city park or garden, where he would also be under guard, conserve the food supply which would be secured in that manner and it might not only prove beneficial to the city, but to the individual himself. The experiment is well worth trying.

25 Years Ago

(From Advocate April 18, 1892.) For two years Denison has won the championship in baseball, a result even more strenuous efforts will be put forth this year. The first game will be played Saturday at the athletic grounds in Granville between Denison and the O. S. U. Nines.

Miss Alice Fooks is visiting in Zanesville the guest of Miss Agnes Meeds.

The Pythian Sisters will give a prize waltz at their dance tomorrow night, a box of cigars will be given to the best gentleman waltzer and a fine cake to the best lady waltzer.

The hens are now laying eggs at 12 cents a dozen, which is probably as cheap as they can afford at this season of the year.

Yesterday was a red letter day in Zanesville, fully twenty thousand people attended the dedication of the new Title Works in that city. Many Newark citizens went down for the exercises in the afternoon.

15 YEARS AGO TODAY. (From Advocate April 18, 1902.) From Brighton was delivered of his Academy work at Granville and is now styled Assistant Professor of Engineering.

The evening euchre club met this week with Miss Alice McCune. The prizes were won by Mr. and Mrs. Frank Kennedy. After refreshments the fascinating game of ping-pong was indulged in.

M. J. Perkins, Walter L. Flory, Donald Powers, R. B. Hunt, and Lee L. S. Shepard left Granville for Columbus this morning where they will attend the reunion of Beta Theta Pi fraternity.

The fourteen months old child of Mr. and Mrs. Charles F. Metz died at their home in Cincinnati, Sunday morning with typhoid pneumonia.

Miss Maude Showman has just received the announcement of the marriage of her cousin, Cora D. Winter to Mr. Guy Manson. Miss Winter recently spent several months visiting relatives in this city.

Miss Lida Brown of Chicago Junction, was in the city on Sunday, the guest of Miss Anna Flanagan.

The World War a Year Ago Today—April 18.

Germans stormed and captured from the French a stone quarry near Phionmont on the Meuse with 1,750 prisoners.

Turks captured over 500 yards of British trenches at Betissas on the Tigris. Losses 3,000 to 4,000 on each side.

The United States government sent to the German government a note declaring that unless Germany abandoned its submarine methods diplomatic relations would be severed. The note declared that the passenger steamer Sussex was torpedoed without warning by a German submarine.

Trebizond, a fortified Turkish Black sea port, captured by Russian armies in co-operation with a fleet.

France reported repulse of German attacks on the Aisne and along the line east of Aisne valley. In the Aisne battle the French used bayonets.

UNION-STATION MAN IS INJURED AT COLUMBUS PARK

Associated Press Telegram. Columbus, April 18.—"Tinker Day"—the season's local baseball inaugural—yesterday was marred by the accidental injuring of 40 men when a section of the bleachers gave way at the beginning of the game.

Of the 40 who were rushed to Columbus hospitals only 14 remained under the care of hospital physicians this morning. The others were released after minor bruises and scratches had been dressed. None of the injured were dangerously hurt. E. A. Dilline of Union Station was one of those who suffered slight injuries and who was released from the hospital soon after his arrival.

4,000 VOLUMES ARE CIRCULATED DURING MONTH BY LIBRARY

Newark patrons of the public library last month drew 4000 volumes from the library according to the monthly report of the librarian. Fiction, of course, predominated but the fact that 113 non-fiction books were taken out indicates that there was much serious reading. The report from March 19 to April 15 follows:

SCOTT NEARING IS DUSTED FOR STAND AGAINST MILITARY

Toledo, April 18.—The services of Professor Scott Nearing as dean of arts and sciences in Toledo University were dispensed with last night by action of the institution's board of trustees, which voted four to three for his removal.

The action resulted primarily from Dr. Nearing's stand against militarism, in which he aroused sentiment against himself by his public addresses at the time the United States government was preparing to go to war with Germany.

BERNHARDT UNDER KNIFE; CONDITION IS DANGEROUS

New York, April 18.—Madame Sarah Bernhardt, the famous French actress, was operated upon at Mt. Sinai Hospital late last night by Dr. Leo Buerger. She is dangerously ill with an infection of the kidneys and the operation was deemed the only hope of saving her life.

After the operation Mme. Bernhardt was said to be resting quietly. The decision to resort to the knife was not reached until 10:30. Early in the day improvement in her condition was apparent, but it took a sharp turn for the worse late in the afternoon.

FULTON'S CHAUFFEUR HED; WAS HAVING A JOY RIDE

Columbus, April 18.—Charged with operating the auto of Secretary of State W. D. Fulton, 940 East Broad street, without the latter's consent, Algeron Clinton, aged 48, 928 Tulip street, was arrested last night by Frank Harn, manager of the Columbus Auto Club, when he saw Clinton in the machine with five other negroes. Clinton had been employed as driver by Fulton. The machine was taken from the garage yesterday morning.

ZANESVILLE GETS FIFTY THOUSAND FOR Y. M. C. A.

Zanesville, April 18.—A campaign for \$200,000 for a Y. M. C. A. home was launched here yesterday with the announcement that \$50,000 already had been subscribed. W. M. Bateman, captain, and W. M. Shinnick, treasurer, each subscribed \$25,000.

Run-down? —Tired? —Weak?

Every Spring most people feel "all out of sorts"—their vitality is at a low ebb. Through the winter months shut up a great deal in heated houses, office or factory, with little healthy exercise in the great outdoors—eating more than necessary—the blood becomes surcharged with poisons! The best Spring medicine and tonic is one made of herbs and roots without alcohol—that was first discovered by Dr. Pierce—years ago. Made of Golden Seal root, blood root, with glycerine, it is called Dr. Pierce's Golden Medical Discovery. Ingredients on wrapper. It eliminates from the blood disease breeding poisons. It purifies the blood and pure and furnishes a foundation for sound, physical health.

Ashtabula, Ohio.—"I used Doctor Pierce's Golden Medical Discovery as a 'spring medicine.' It was advertised to cleanse the blood and tone up the system. I found it just as represented and was glad I used it. I am very pleased to recommend it."—Mr. W. W. Smith, 601 Lake St., Ashtabula, Ohio.

Massillon, Ohio.—"Three years ago I had bad stomach trouble and rheumatism. I used other remedies which did not do much for me. Then I began using Dr. Pierce's Golden Medical Discovery. It proved a good stomach tonic for rheumatism and cured my stomach trouble. It helped me wonderfully and eased the pains."—Mrs. S. J. McLaughlin, Mill St., Massillon, Ohio.

WHERE DO YOUR OLD CLOTHES GO?

An unusual feature will be run at the Alhambra theatre tonight and tomorrow, showing the manufacture of CERTAIN-TEED roofing and slate surfaced shingles in the world's largest roofing mill. The picture is one of special interest at the present time as it shows where your old clothes go. How they are shredded and beaten in millions of gallons of water, how the felt is saturated with asphalt and finally the ghost roofer, the roof that lays itself.

This picture is in addition to the regular program at the Alhambra. Certain-Teed products are sold exclusively in Newark by The R. B. White Lumber Co., and are guaranteed, go and see the picture tonight. 4-18-2t

Recruits for Navy.
Chief Electrician R. O. Keck who has opened a permanent recruiting station for the navy at 613 Main street, Zanesville, was in Newark today. Mr. Keck was with Mr. Maah

on the submarine C-5 but did not know until yesterday that Maah had been recruiting in Newark. He asks the Advocate to request those who are interested in getting into the service to report to him at Zanesville. The dozen Newark young men who entered the service the past few days have been sent to Cleveland. Some will be sent from Cleveland to the Great Lakes training station at Chicago.

Witnessed Game.
George Graesser, Byron Dickinson, and Homer "Rube" Jones, attended the Columbus-Louisville game at Columbus yesterday and were the leaders in the rooting for their old-time friend, Johnny McCarthy, who covered center field in such a splendid manner and secured two nice hits. The three Newark fans were sorely disappointed on the final outcome, Columbus losing out in the twelfth inning 5 to 4.

Gift to Y. M. C. A.
W. M. Shinnick, manager of the Mosaic Tile company, has pledged \$25,000 toward a \$200,000 fund to establish a new Y. M. C. A. home in Zanesville.

Ready for Call.
James Murphy, the West Main street grocer has purchased a new runabout car and has had it arranged to carry a complete angler's outfit. He is now ready and fortified for an excellent season of fishing and expects to remember scores of his friends with fine messes of bass, cat or Lake Erie trout. Mr. Murphy is an expert and holds the record for the largest catches at the lake last season.

Back From Trip.
Ralph More of Flory avenue is back from a trip through the west and southwest. He visited in Colorado, Arizona, New Mexico, Texas, Arkansas, Tennessee and Virginia. Mr. More states that he greatly enjoyed the trip and gained nine pounds while away.

A Short Business Talk.
In a certain store the merchandise manager sent for the ready to wear and millinery buyers and said to them: "You men are getting a bad accumulation of stock that is hard to move. Hereafter you will make a daily and weekly inventory and send the report to this office."

Both buyers declared this to be impossible, but the merchandise man told them to go and do it. Especially he wanted them to show the age of the goods in stock, the sizes and the colors. After attempting to take some of these daily inventories the buyers decided that an easier way would be to get busy and sell the goods faster. This same plan has been used in many departments with fine results.

There is nothing like the spot light to engender selling activity in a store.—Philadelphia Record.

"Nerv-Worth a Remedy Which Can Be Recommended to Every Sufferer From Nervousness."

The following eloquent signed statement was made some time ago to T. J. Evans, the Nerv-Worth representative at Newark, where this famous family tonic has been sold steadily in large quantities to the ailing folks of the community: "For several years I suffered with nervousness, tried several doctors who could not help me. Then I tried a bottle of Nerv-Worth and after having finished the first bottle I felt very much relieved. 'I have taken about seven or eight bottles and would not be without one. I consider this remedy to be one which can be recommended to every sufferer from nervousness.' (Mrs.) 'EMILY LUCKNER, '532 Prior Ave., Newark, O.' "GROW FOOD" B. & O. SLOGAN SURVEY MADE

Mr. C. F. Farmer, traveling dairy freight agent, B. & O. Railroad, returned this morning from Pittsburgh where he attended a meeting of the traffic representatives, held in the office of Vice President Thompson, Industrial Agent David Hum Jr. presided at this meeting. He explained that it was the desire of the executives that the commercial development department devote their entire time and energy in the gathering of statistics in connection with the food situation. Mr. Farmer was assigned the territory between Pitt. Vernon to Lore City and Cumberland, O., calling on the farmers, getting names of each, on or near the B. & O., distance of his farm from the station; the number of acres devoted to each crop, including cereals, forage, vegetables and fruits; the amount of farm labor needed for the kind of work offered, and the dates when needed, the rates of pay per day with board and lodging.

Business firms will be urged not only to take vacations to employees but to restrict vacations to actual service in helping to produce food products for the nation. The boys too young to enlist, or the man who is exempt from compulsory military service may be fit in a thousand ways for farm work. B. & O. employees will be given this opportunity and wages that shall be received therefor to be donated to the Red Cross.

MAY DELINEATORS ARE HERE
For The Careful Dresser
Smart Spring Suits

Go by easy steps from \$12.50, \$18.00, \$20.00 and \$25.00 on up to \$60.00.

—And they take in the desirable colors, styles and materials. It's really surprising what stylish models are shown at these popular prices.

A PRETTY SUIT at \$12.50

These attractive suits are in the wanted shades such as gold, green, navy, black and neat checks in black and white.

INTERESTING VALUES IN SUITS ARE THOSE FROM \$18.00 TO \$25.00

Because they are particularly stylish for one thing, and because they are the best in value at the price. You will find a good assortment of styles in plain colors in poplin, serge, homespun and pretty checks in black and white.

You will readily see that suit fashions are not necessarily expensive when you see these pretty suits priced from \$12.50 to \$25.00 each.

DRESSES MADE TO FIT GROWING GIRLS

You know how difficult it has been at times to fit growing girls of 10 to 18 years of age. It is difficult no longer, for we have just what is needed for the girl who is no longer a little girl, but not quite a young lady.

We have a complete line of sizes for children, intermediates and junior sizes, in a beautiful assortment of wash materials, including linens in all colors and pretty fancy voiles. Models with all the style points of those made for the older people. May we show them to you soon?

HOW GAY SHOULD A SPORT SUIT BE?

Your safe test is "Gay and cheerful as you please, but not crude," and what a wealth of charming color there is in the newest models. Here you will find nobby styles in wool jerseys in green, gold, citron and rose. Handsome white silk jerseys with gold trimmings. Another attractive suit of Shantung has a blue coat and white skirt. Many pretty models in pongee and tussah, some of them showing either the skirt or coat of a figured weave, or others the plain fabric with pretty touches of color for trimming on collar, cuffs, pockets and belt.

SPORT SUITS ARE SMART AND BECOMING

You will see many of them worn this spring and summer, both afternoons and evenings.

GAS, HEARTBURN, INDIGESTION OR A SICK STOMACH

"Pape's Diapiesin" Relieves Stomach Distress in Five Minutes.

Time it! Pape's Diapiesin will sweeten a sour, gassy or out-of-order stomach within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is usually a sign of acidity of the stomach.

Get from your pharmacist a fifty-cent case of Pape's Diapiesin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches or dizziness. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin helps to neutralize the excessive acid in the stomach which is causing the food fermentation and preventing proper digestion. Relief in five minutes is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapiesin" to usually keep the entire family free from stomach acidity and its symptoms of indigestion, dyspepsia, sourness, gases, heartburn, and headache, for many months. It belongs in your home.—Advertisement.

BROMLEY SERVICES

(Continued From Page 1)

who waited on a cold December day to get up a good sweat before he started to cut down a tree. The world is full of such people. Don't wait to get up a moral sweat before cutting down the tree of salvation. There are too many excuses given as the reason why a man should not become a Christian.

The present disbelief and doubt to the authenticity of some passages in the Scripture were derided by the speaker. "Live up to the Bible that you know and don't worry about the parts that you don't know," said he enthusiastically. "God is the finest mathematician that ever solved a problem."

At the close of the sermon a special meeting was called for the benefit of those who wished to meet with the personal workers.

Dr. Bromley struck a happy vein at the high school this morning when he addressed the student body. The subject of the lecture given by the evangelist was "Optimism" and throughout the entire address he urged the boys and girls to continue striving to give the best that is in them and urged them to make good use of their time. He also referred to the war in Europe several times and to the prominent part that this nation is playing in the fray lately.

Yesterday afternoon the first afternoon service was held at the tabernacle and a large congregation faced Rev. S. B. Goff, the assistant evangelist, who had charge of the service.

H. Wicand had charge of the music and the scripture lesson was read by Miss Gladys Ditzell. "St. John gives us a sublime composite picture of Jesus," said the speaker. "He shows Him to us as the Deity in the first chapter, in the second we have a social side of Him, in the third chapter the teaching phase of the Master and in the fourth chapter we have Jesus the soul winner."

"Speakers paint a beautiful picture of Jacob's well and of the meeting face to face of Christ and the woman at the well. Jesus at the well created in her a mighty desire for the water of life. She cries and asks Him how she can get this water and then starts an argument as to the best place for her to go to church."

"Christ told His disciples that it was meat for him to do the will of Him that sent Jesus into the world. He tells them of the reward and the compensation for service and if we serve God and do His will then we are developing our own soul. The more, for instance, that you put into the Christian religion, the more you will get out of it. The more you put into this campaign, the more you will get out of it. The law of activity is the law of growth. The swift running stream never freezes over. Many of the church people of today are frozen on account of their inactivity. There are many leaders in the church today who never led a soul to Jesus and yet winning souls for Jesus should be the prime object of every church member and every church. There are too many pillows in the church today who are but pillow shams."

"If we serve God we are bringing help to others. Many humble men have become God's noblemen. Augustine, Wycliffe, Luther, Wesley, Knox, Moody, Sunday, all, after all, humble men, picked up and made great by God."

If you serve God you are sowing good seed that will be reaped in eternity. All true happiness comes from the joy of service and we should consecrate ourselves to the work of the Lord.

The first mass meeting for young men will be held tomorrow evening at 8:45 o'clock in the First M. E. church and Frank Harris, the pianist and young men's worker of the party will deliver the address of the evening.

The young men's committee has been busily engaged during the past week inviting their friends to the services and the town has been tickled for the meeting.

A service was held in the school room at Black Hand yesterday afternoon by W. W. Shannon and Dallas M. Blatt of the Bromley party. The service was not only attended by the school pupils of the township but also by many grown ups.

At Hanover a meeting was held in the Presbyterian church and this church was filled with people to hear the addresses. The pupils of the school marched in a body to the church and many of the farmers of that vicinity turned out.

Mr. Shannon delivered an address at this place, his subject being "How to be Strong."

Dr. Bromley met the ministers this morning and held a conference with them in which he outlined the work for the coming week.

Friday night will be Sunday school night and some of the Sunday schools are doing their best to turn out with their entire membership. The tabernacle will be reserved for the Sunday schools on this night.

MRS. BURNHAM JAMAICA, N. Y.

Sufferings Cured by Medicine Recommended by Sister-in-law.

Jamaica, N. Y.—"I suffered greatly with my head and with backache, was weak, dizzy, nervous, with hot flashes and felt very miserable, as I was irregular for two years. One day when I was feeling unusually bad my sister-in-law came in and said, 'I wish you would try Lydia E. Pinkham's Compound.' So I began taking it and I am now in good health and am cured. I took the Compound three times a day after meals, and on retiring at night. I always keep a bottle in the house."—Mrs. L. N. BURNHAM, 295 South St., Jamaica, N. Y.

Women who recover their health naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.
